

Joint Meeting SFMM – BSHAM  
PROGRAM

DERMATOPHYTES  
AND  
INVASIVE FUNGAL INFECTIONS

---

November 5 & 6, 2024

Organized by the  
SFMM – French Society of Medical Mycology &  
BSHAM – Belgian Society for Human and Animal Mycology

Salle des Conférences, Faculté de Médecine, Pôle Recherche,  
1, Place Verdun, 59045 LILLE, France  
Metro, Line 1, CHU-Centre Oscar Lambret Station

More information:

# 1 DERMATOPHYTES

13:30 – 14:00 – Welcome of the participants

14:00 – 14:15 – Introduction

Pr Dominique Lacroix, Dean, UFR3S, University of Lille

Pr Françoise Botterel, President of French Society of Medical Mycology

Pr Marie-Pierre Hayette, President of Belgian Society of Medical Mycology

Pr Boualem Sendid, Parasitology and Mycology, University of Lille

14:15 – 15:00 – Opening conference

Pr Jacques Guillot, Oniris, National Veterinary, Agrifood and Nutrition School, Nantes-Atlantique

15:00 – 16:30 – New trends in dermatophytosis

**15:00**      **Characterisation and resistance profile of *T. indotineae* strains from BCCM/IHEM fungi collection**  
*MSc. Roelke De Paepe (Sciensano, Mycology unit, BE)*

**15:15**      **New diagnostic strategies for onychomycosis**  
*Ph Biol. Severine Evrard (CHR Citadelle, Microbiology Unit)*

**15:30**      **Extensive infection due to *T. indotineae* treated with oral voriconazole**  
*Dr Niels Horst (Department of Dermatology, UZ Antwerp)*  
*Recorded presentation & online question and answer session*

**15:45**      ***T. rubrum* treatment by terbinafine: nail or fail?**  
*Dr Camille Cordier (CHU Lille, Inserm U1285-CNRS UMR8576)*

**16:00**      **Onychomycosis due to non-dermatophytes fungi**  
*Dr Sophie Brun (AP-HP, Bobigny)*

**16:15**      **Trichophyton mentagrophytes**  
*Dr Arnaud Jabet (AP-HP, Pitié Salpêtrière, Paris)*

16:30 – 17:00 – Coffee break

17:00 – 18:00 – National multicentric studies

**17:00**      **Screening for *T. indotineae* and strain characterization in Belgium 2022-2023**  
*PhD. Rosalie Sacheli (National Reference Centre, CHU Liège)*

**17:15**      **Terbinafine resistance in Dermatophytes: a French multicentre study**  
*Dr Eric Dannaoui (Mycology-Parasitology, Necker Hospital APHP, Paris-Cité University)*

**17:30**      **Successful treatment of mold onychomycosis with voriconazole cream**  
*Dr Alicia Moreno (Mycology-Parasitology, Sorbonne University, Paris)*

**17:45**      **Accurate Diagnosis of Dermatophyte Infections Using the DendrisCHIP® Technology**  
*Dr Hélène Guegan (Mycology-Parasitology, CHU Rennes)*

18:00 – 18:30 – Dermatophytes resistance: clinical cases & expert panel from France and Belgium

*Dr Jonathan Krygier, CHU St Pierre, Brussels*  
**(case of tinea pedis *T. rubrum* R to terbinafine) &**  
*Dr Sarah Dellière, St Louis Hospital, APHP, University Paris-Cité*  
**(challenges raised by cases of dermatophytosis due to *T. indotineae*)**

**Panel of experts:**

*Dr Eric Dannaoui, Mycology-Parasitology, Necker Hospital, APHP, Paris-Cité University*  
*PhD. Rosalie Sacheli, National Reference Centre, CHU Liège, BE*  
*Dr Arnaud Jabet, Mycology-Parasitology, APHP, Sorbonne University*  
*Dr Pauline Lecerf, Dermatology, Brugmann University Hospital, BE*  
*Dr Jonathan Krygier, Dermatology, CHU St Pierre, Brussels, BE*  
*Dr Sarah Dellière, Mycology-Parasitology, St Louis Hospital, APHP, University Paris-Cité*

18:30 – End of day 1

19:30 – Dinner

## 2 INVASIVE FUNGAL INFECTIONS

### 09:00 – 10:00 – Opening conference

- 09:00**      **The changing landscape of invasive mold infections**  
*Pr Katrien Lagrou (Department of Laboratory Medicine and National Reference Centre for Mycosis, UZ/KU Leuven)*
- 09:30**      **Diagnostic strategies of invasive yeast infections in ICU**  
*Pr Julien Poissy (CHU Lille / UFR3S)*

### 10:00 – 11:00 – New trends in invasive fungal infections

- 10:00**      **Fungal infections in Hematology**  
*Dr Adrien De Voeght (Clinical Hematology, CHU Liège, BE)*
- 10:15**      **Tools for the diagnosis of invasive aspergillosis**  
*Dr Robina Aerts (Laboratory of Clinical Microbiology, KUL)*
- 10:30**      **Expression of  $\beta$ -1,2 oligomannosides of *C. auris* cell wall**  
*Dr Jordan Leroy (Institute of Microbiology, CHU Lille)*
- 10:45**      ***Pneumocystis pneumonia* in solid organ transplant recipients**  
*Pr Gilles Nevez (Parasitology & Mycology, University of Western Brittany (UBO))*

### 11:00 – 11:30 – Coffee break

### 11:30 – 12:10 – Diagnosis & resistance in invasive fungal infections

- 11:30**      **Molecular diagnosis of mucorales infections**  
*Pr Laurence Millon (Parasitology Mycology, CHU Besançon)*
- 11:50**      **Increased triazole resistance rates in invasive aspergillosis in Belgium over a period of 10 years' time**  
*PhD. Lize Cuyper (Department of Laboratory Medicine and National Reference Centre for Mycosis, UZ Leuven)*

## 3 NEW THERAPEUTIC APPROACHES

### 12:10 – 13:30 – Lunch

### 13:30 – 14:15 – Opening conference

- 13:30**      **New antifungals: epidemiological data underlying their use, pre-clinical data and resistance**  
*Pr Fanny Lanternier (National Reference Center for Invasive Mycoses, Institut Pasteur, Paris - Infectious Disease Department, Necker Hopsital)*
- 14:00**      **Invasive Fungal infections: new antifungals**  
*Pr Johan Maertens (Department of Hematology, UZ Leuven)*
- 14:30**      **Antifungal and anti-biofilm effects of hydrazones derivatives on *Candida* spp.**  
*Dr Faustine Dubar (University of Lille, France)*
- 14:45**      **BET Bromodomain: new antifungal target against *Candida* species**  
*Dr Jérôme Govin (University of Grenoble, France)*

### 15:00 – 16:00 – Setting up collaborative studies

- Group 1:**      **Dermatophytes & resistance to terbinafine**  
*PhD. Ann Packeu (Mycology Unit, Sciensano, BE)*  
*Dr Alicia Moreno (Mycology-Parasitology, Sorbonne University, Paris)*
- Group 2:**      **Invasive fungal infections, WGS applications**  
*Pr Boualem Sendid (Parasitology and Mycology, University of Lille) & Pr Katrien Lagrou (Department of Laboratory Medicine and National Reference Centre for Mycosis, UZ/KU Leuven)*

### 16:00 – Conclusions of the conference
